Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA

High pressure will continue to produce warm and dry conditions across the North Operations region through early Monday. The high will move east late Monday as a Pacific low pressure system rapidly approaches. A north-east and offshore downslope wind pattern will develop from the lower western slopes of the Sierra to the coast late today and come to an end early Monday. Winds of 15-25 mph with gusts 30-40 mph will be possible in wind-prone areas, and poor overnight relative humidity recovery will be common through Monday morning. The low pressure system will reach the North Coast with moderate rain around sunrise Tuesday, and spread over the remainder of the region with light to moderate rain by sunset on Tuesday. All areas will see much cooler temperatures and higher relative humidity, and snow levels are likely to drop to around 5000-6000 ft in the north, but not much accumulation is likely at those elevations. Rainfall totals will be 1-3 inches in the northwest mountains, 0.50-1.00 inches on the upper western Sierra-Cascade slopes, and 0.10-0.50 inches elsewhere. This first system will exit the region by Wednesday afternoon, but a second one will produce about the same amount of precipitation Friday through Saturday, and a third system is possible early the following week.

SOUTHERN CALIFORNIA

A strong ridge of high pressure centered off the California Coast will cause temperatures to be around 10 degrees above normal through Monday, with 70s to low 80s in the mountains and mid 80s to mid 90s in the valleys. Minimum humidity will be mainly in the teens away from the coastal areas through Monday. There will be northeast to east winds of 5 to 15 mph Sunday night through Monday morning. A couple of Pacific troughs moving into the West Coast will bring drastic cooling to the region Tuesday through the end of next week. Scattered showers with light rainfall totals will occur from a Monterey and Fresno County line northward Tuesday night through Wednesday morning. Drizzle will occur across Southern California from the lower coastal mountain slopes westward Tuesday night through Wednesday morning due to a deep marine layer. South to west winds of 20 to 30 mph with gusts to 50 mph will surface across the mountain ridges and desert passes Tuesday afternoon through Wednesday afternoon. More light rainfall and drizzle will be possible Friday night into next weekend with the second trough.

RECOVERY ACTIVITIES

Boles Incident Vegetation Fire- City of Weed, Siskiyou County

Recovery Activities

- On 10/01/14, the U.S. Small Business Administration (SBA) approved a disaster declaration making SBA assistance available in the primary County of Siskiyou and the contiguous counties of Del Norte, Humboldt, Modoc, Shasta, and Trinity, making low-interest federal disaster loans available to homeowners, renters, businesses of all sizes and private nonprofit organizations whose property was damaged or destroyed by the Boles Fire. In addition, a Disaster Loan Outreach Center opened Wednesday, 10/01/14, at 1200 hours, located at the College of the Siskiyou's Life Science Building 3, Room LS-1, 800 College Avenue, Weed, California 96094, Mondays – Fridays, 0900 – 1800 hours (Closed 10/13/14 for Columbus Day). Notification letters have been distributed.
- On 10/06/14, the Governor issued Executive Order (EO) B-27-14, which provides CDAA, and debris removal assistance, including the suspension of rules and regulations impacting debris removal.
- Non-food items have transitioned from the Salvation Army to a collaboration of four non-profit agencies that will be involved in the distribution of items such as baby clothes, diapers, clothing, etc.
- The Cal OES VAL continues to coordinate and participate in Long Term Recovery meetings with NGO, Faith Based, and local agencies. On 10/03/14, the Cal OES VAL attended a Long Term Recovery meeting. A mission statement and bi-laws for the long term recovery group were presented, officers were identified, and leads for several committees were formed. Shasta Community Foundation was identified as a fiscal agent for the group and a meeting with agencies that have accepted donations will be held on 10/10/14. Northern California VOAD is supporting the group with long term recovery efforts.
- The College of the Siskiyou's website contains a Fire Resource List of various local agencies offering goods and services. The document can be found at <http://www.siskiyou.edu/humanresources/documents/fireresourcelist.pdf>.
- Food donations are being accepted at 310 Boles Street.
- On 10/02/14, Cal OES Recovery and City staff inspected the City's water system to determine a full Scope of Work, which will be presented, along with the construction contract, to the City Council for approval on 10/09/14.
- Only one family has expressed interest in the temporary sheltering program; the City and family are reviewing the options with no commitment from either side yet.
